8/8/2018

Dear Valued Customer,

This letter is to inform you that due to a recent system update, quarterly billing has been phased out and each customer will now receive an invoice once per month for their monthly service.

Instead of paying your current quarterly rate every three months, you will pay a third of that rate every month.

You will see this change implemented on the next invoice you receive.

We apologize in advance for any inconvenience this change in billing may cause.

Respectfully,
Waste Connections Billing Dept.
